Varela Round ABCDEFGHIJKLMNOPQRSTUVWXYZ

Aa abcdefghijklmnopqrstuvwxyz

1234567890

Varela Round is a sans-serif typeface designed by Joe Prince. It is known for its clean, rounded letterforms, making it both modern and friendly in appearance. The typeface is widely used for web design, apps, and user interfaces due to its readability and casual yet professional look.

Visual Designs

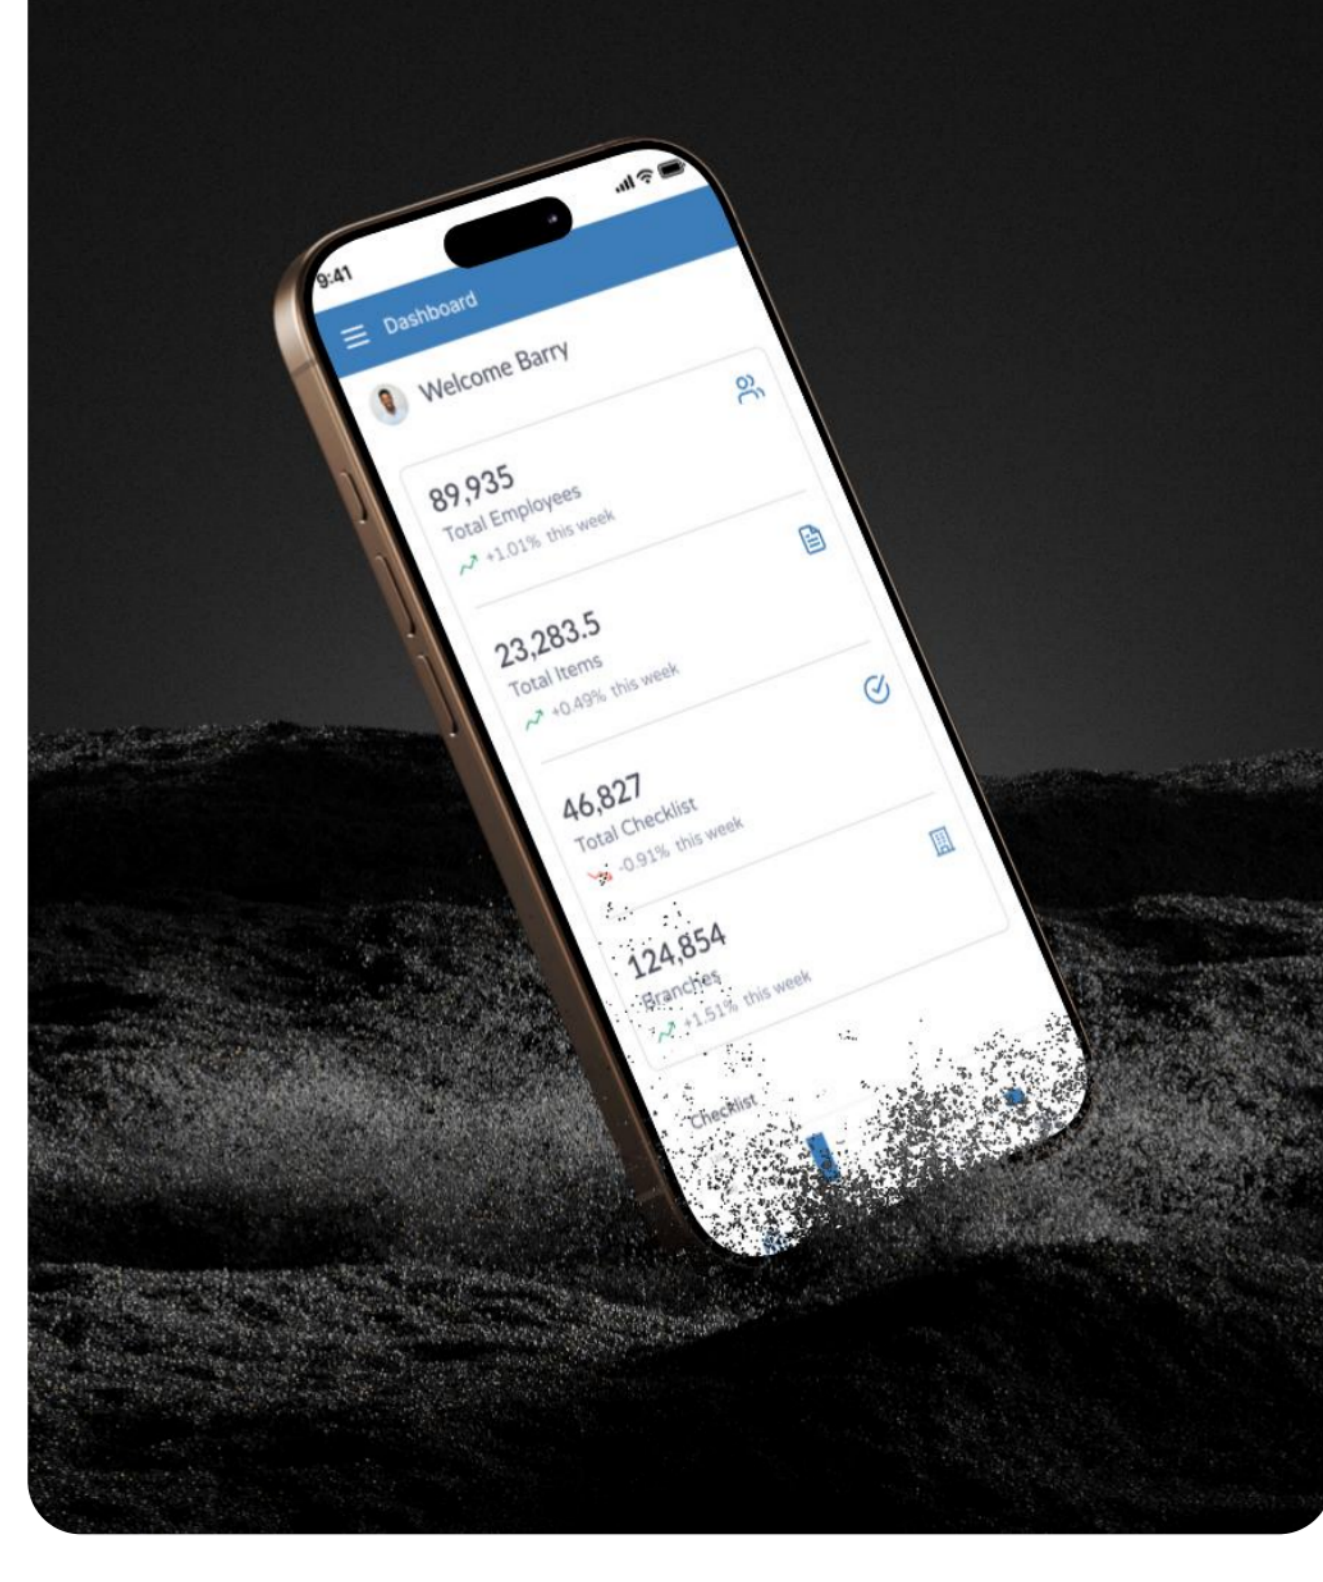

Sign In

Restaurant admins, kitchen staff and management can sign in via unified sign in page, and our software redirects user to relevant section of the software.

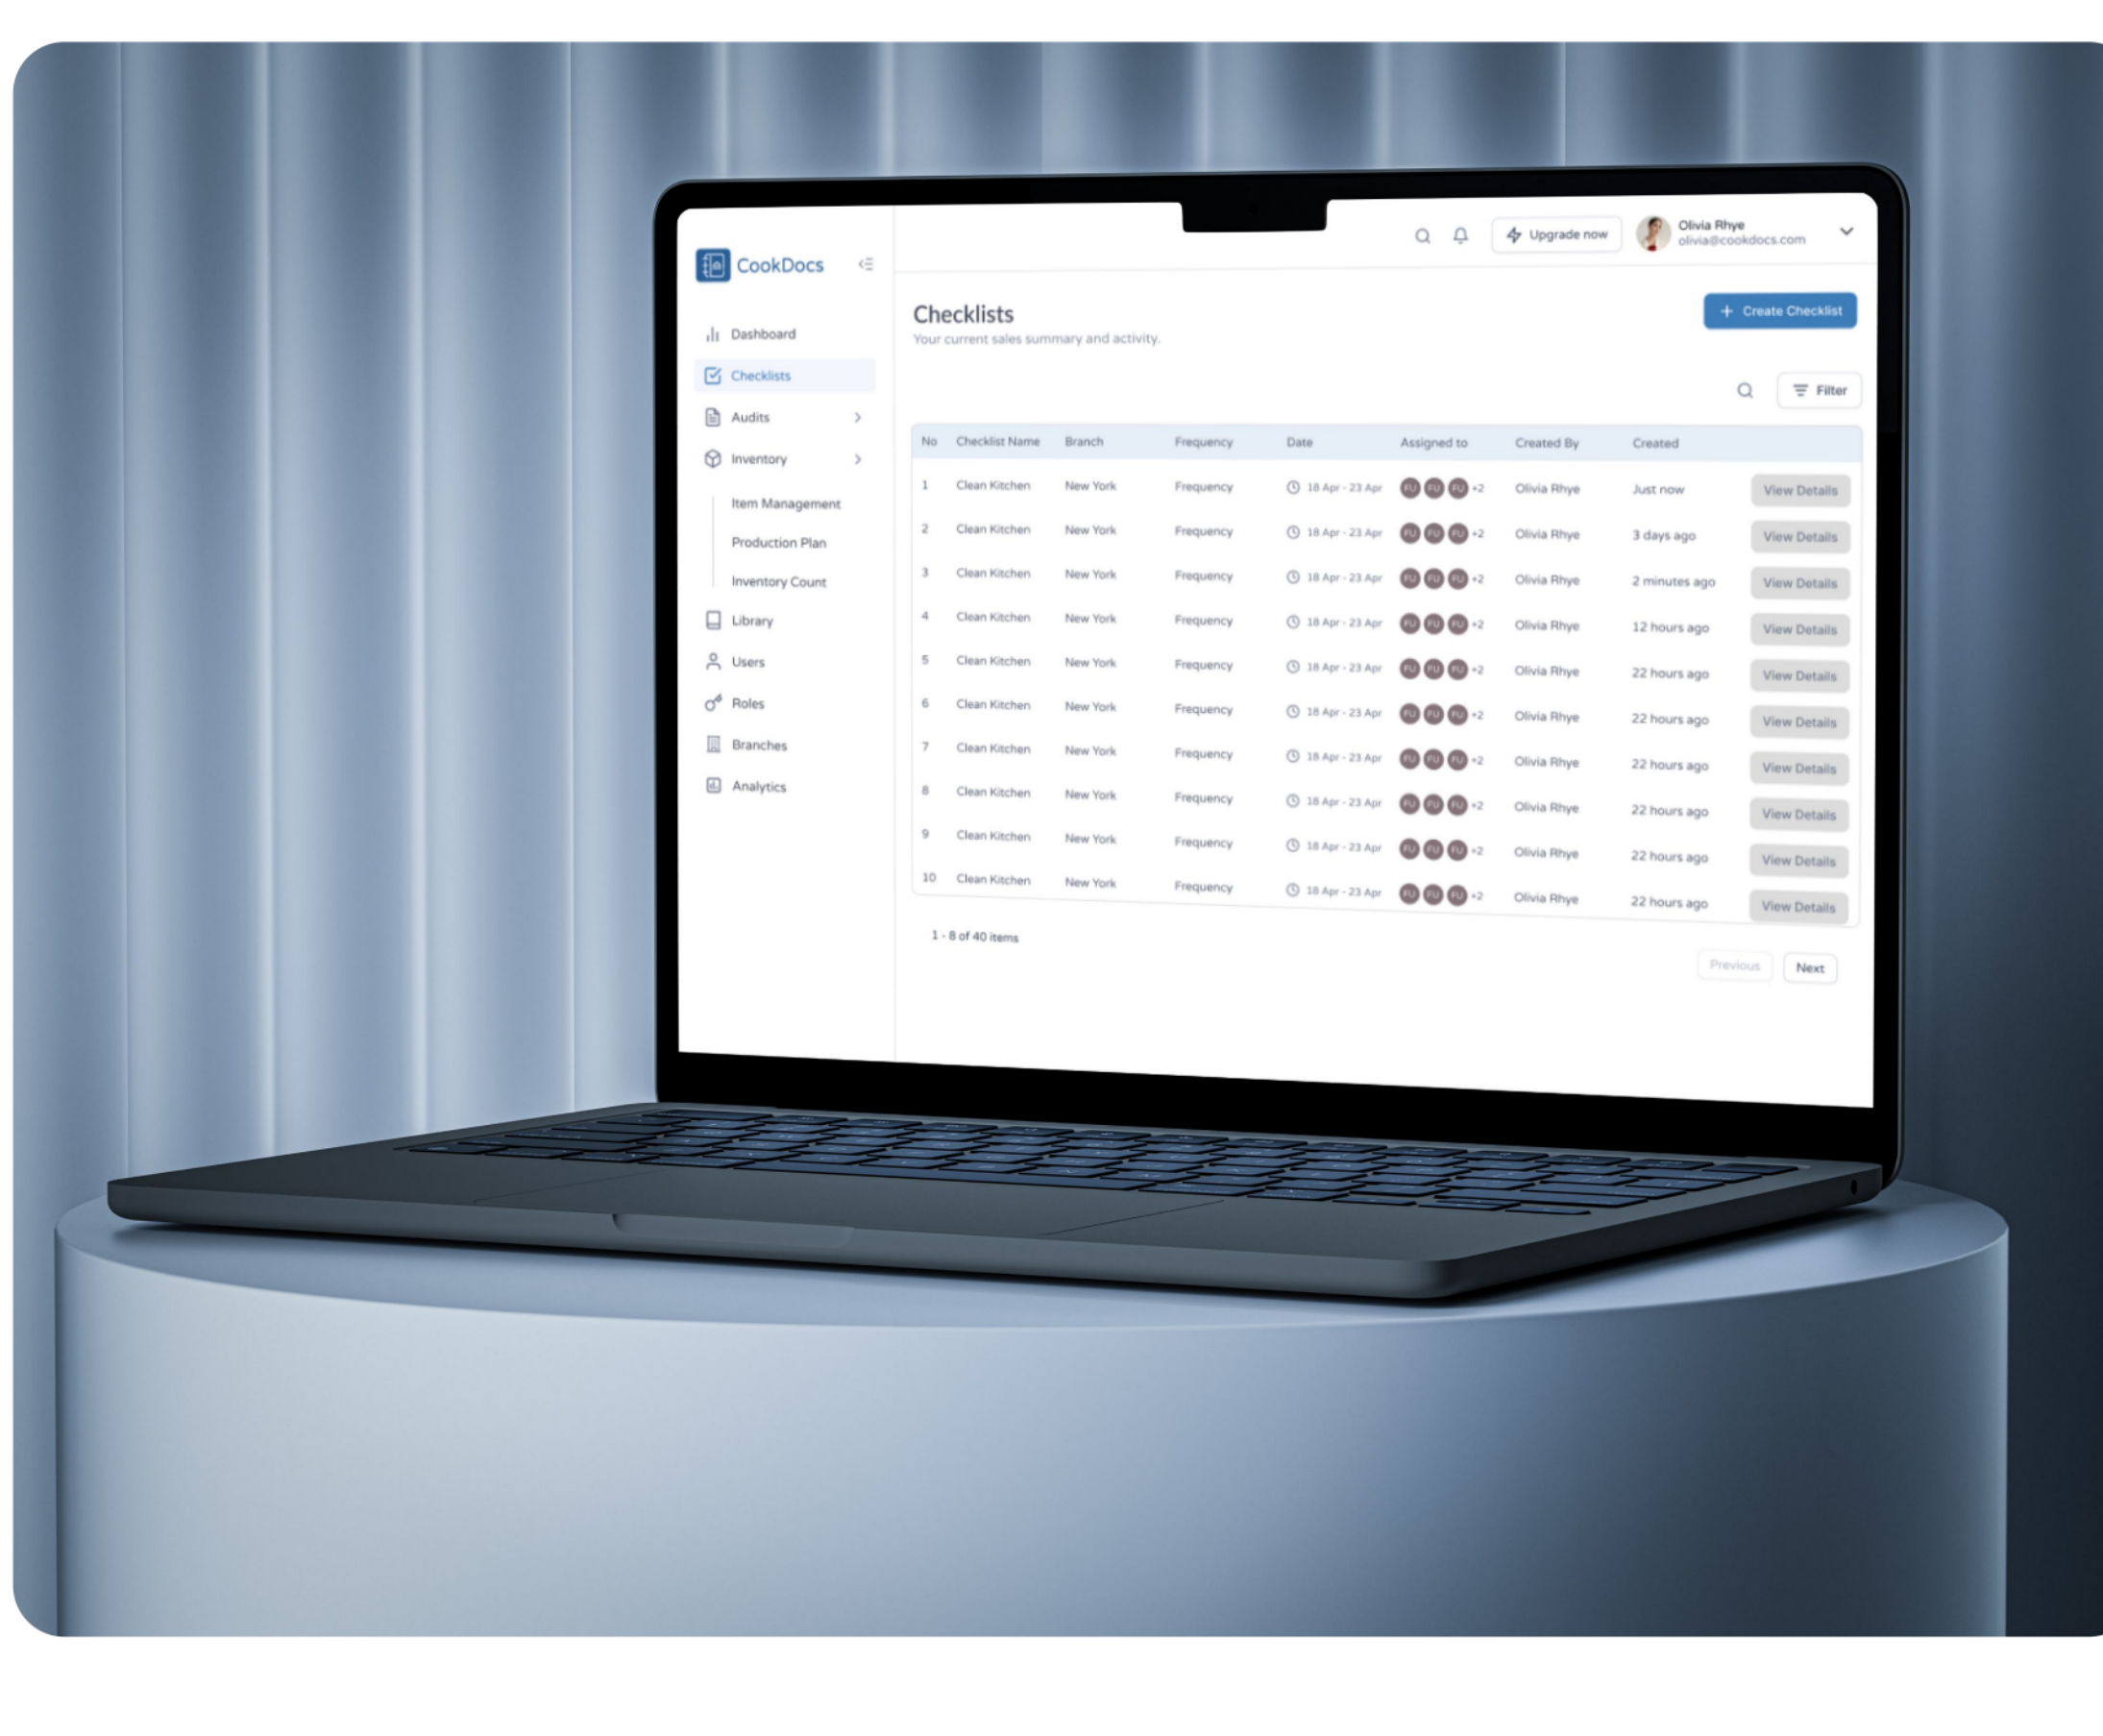

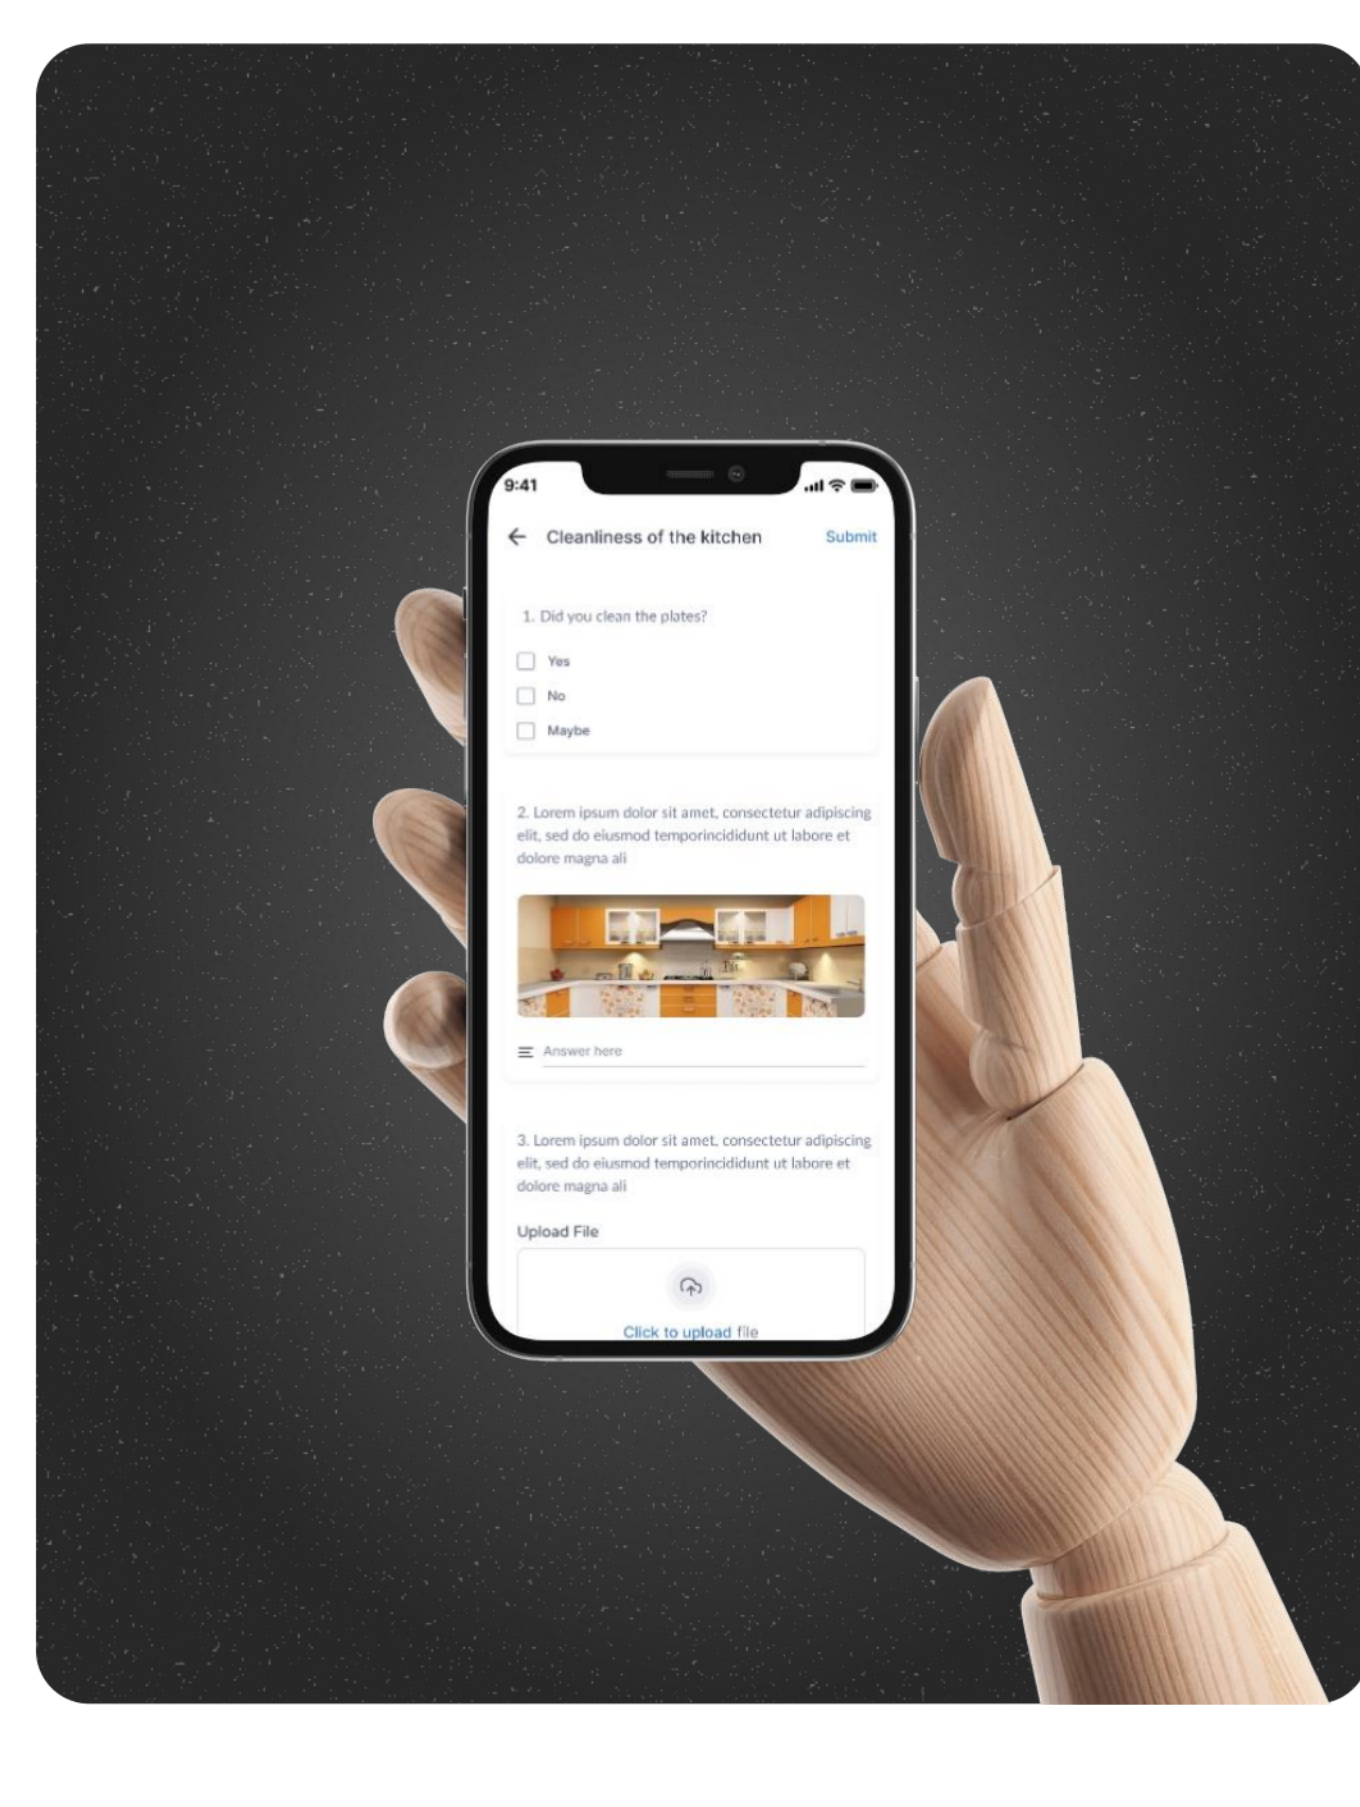

Dashboard

A detailed analytics and summary of KPIs are shown on the dashboard in the form of charts and graphs to help user understand the progress and performance.

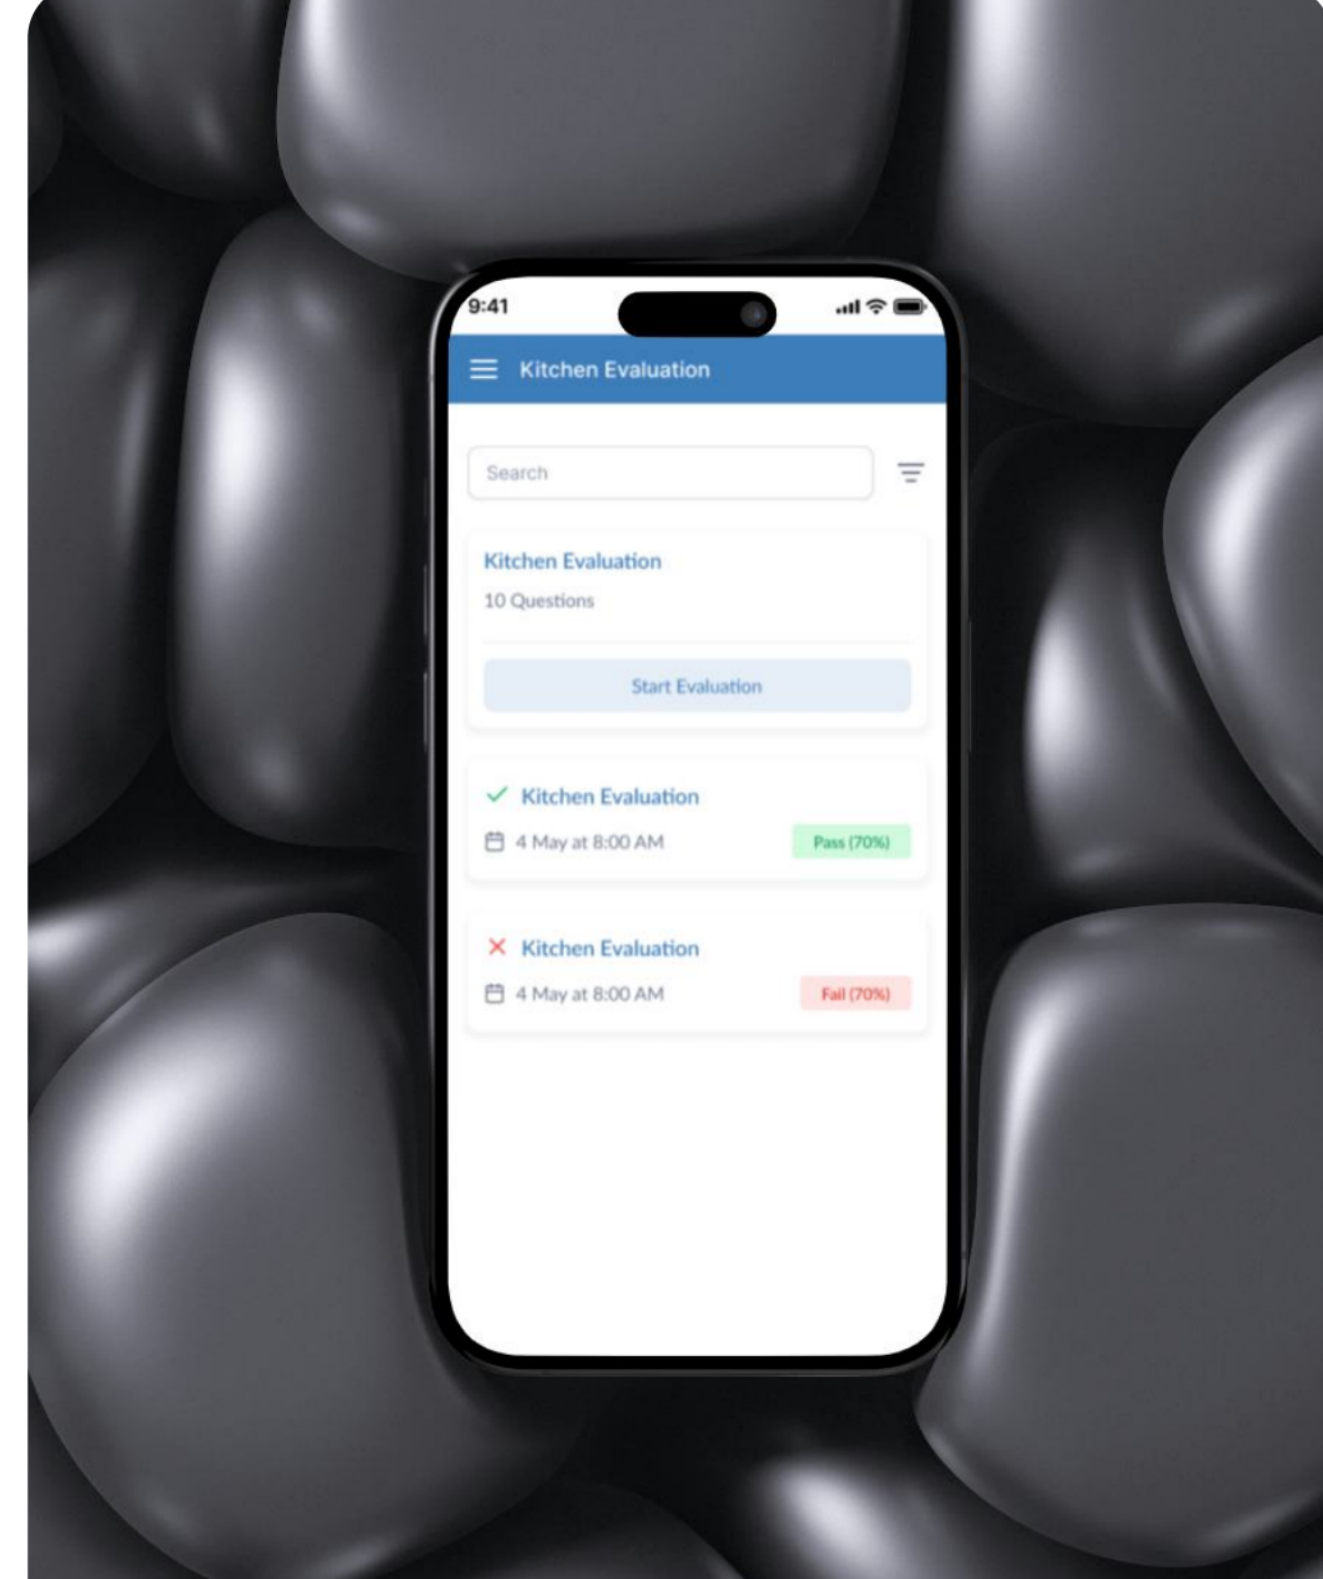

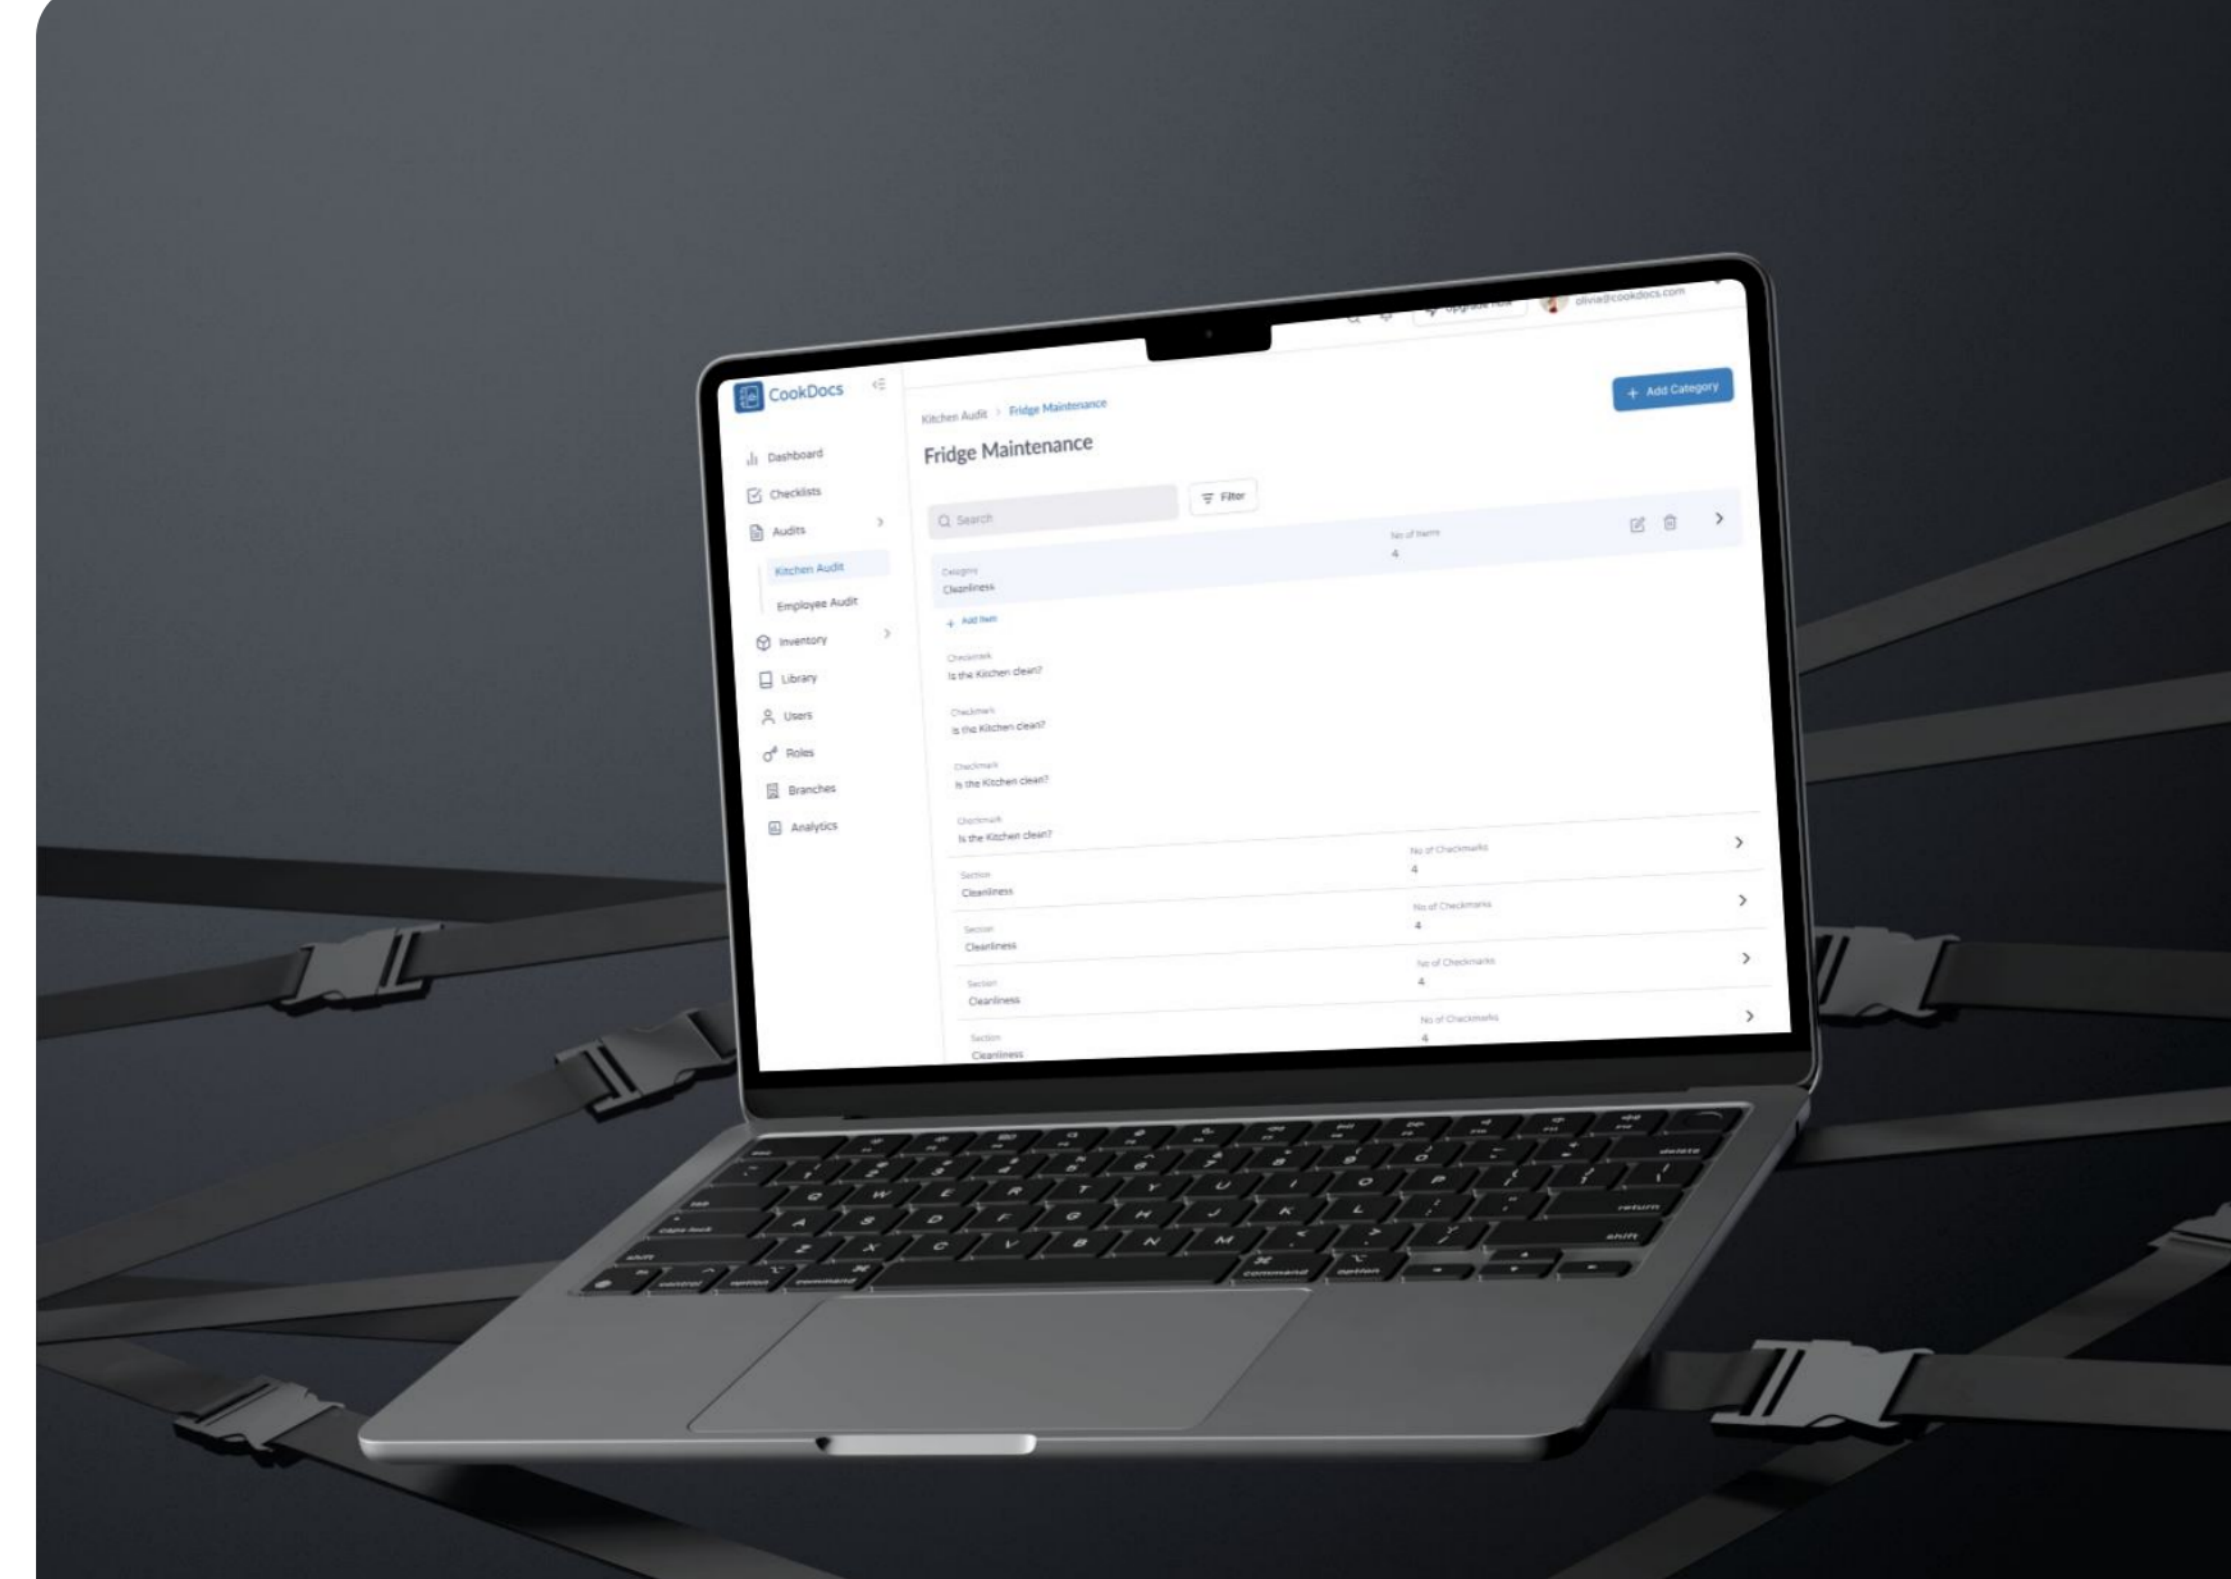

Checklist

Checklist are the most important feature of cookdocs, checklist are evaluation and role based form to track the performance of an employee, a branch, or a kitchen.

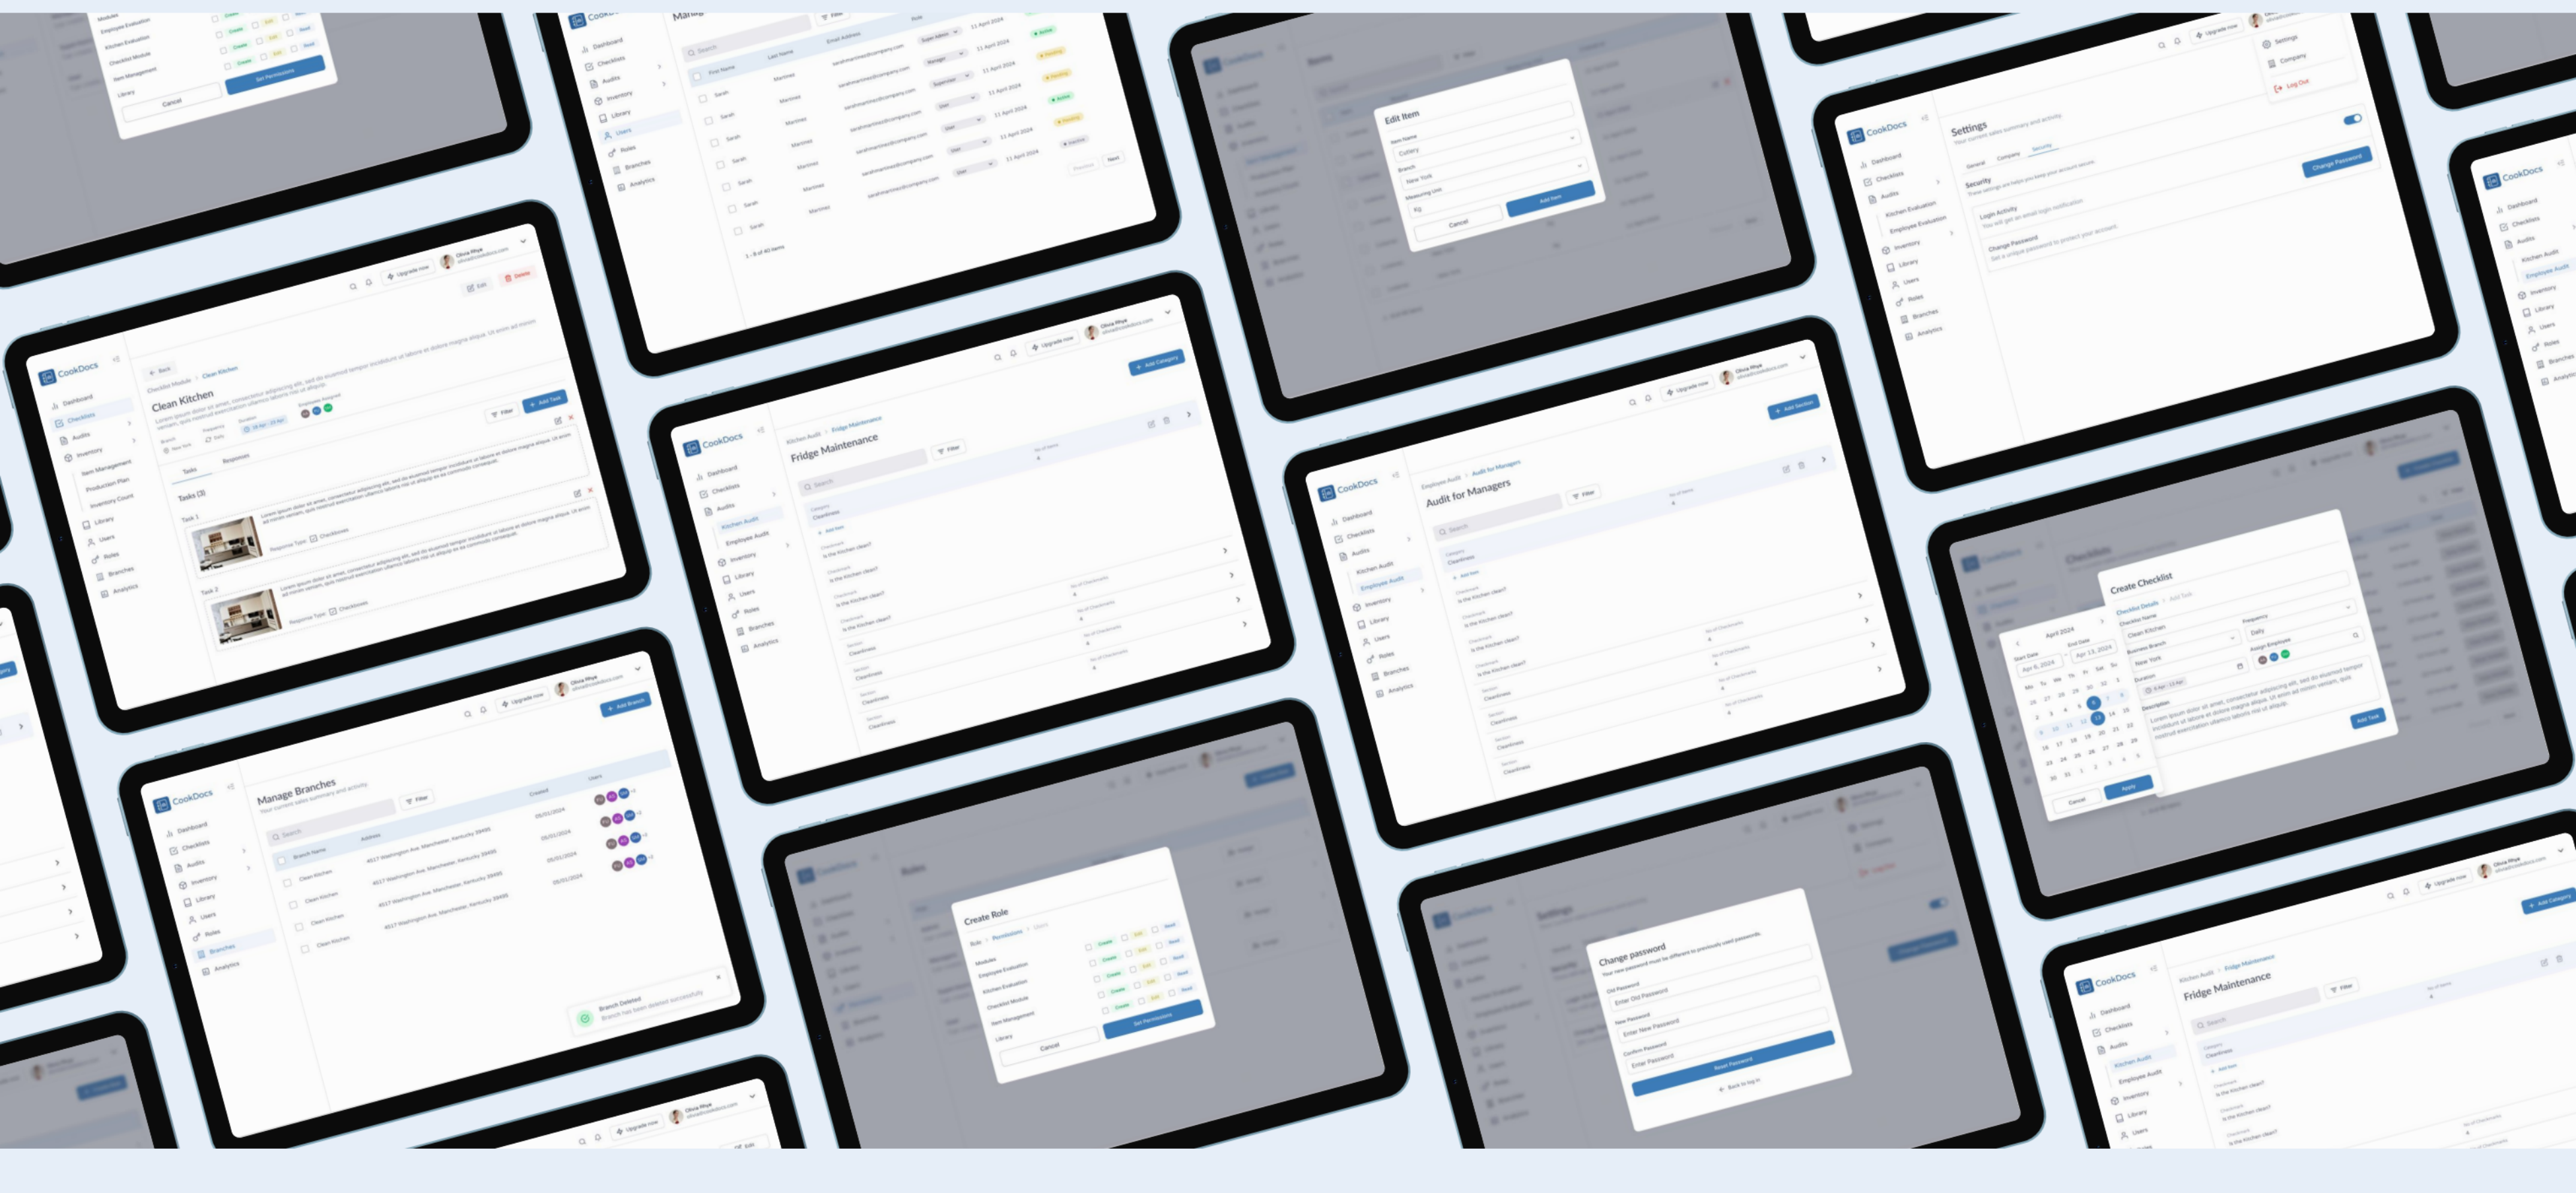

Kitchen Audit

Kitchen audits are evaluation of a kitchen w.r.t different metrics like cleanliness, serviced, inventory and appliances condition.
